

Jumpstarter SEO in a box

One-time setup package

Having a website for your business is one great strategy for planning and budgeting your marketing initiatives. But, considering on-page optimization to make your website SEO friendly will make your plan more effective. With customers using mobile more than ever, SEO is indeed impactful and more helpful for businesses.

For those businesses who want to enhance their chances of being found by search engines, more potential clients, customers, or audiences, but are not yet ready for an ongoing marketing program, building a foundation for your future SEO is ideal for you. That is what our SEO in a box was designed for. A one-time setup to jump-start your website, optimizing page titles, metadata, image alt text, headlines, and other places that Google will scan and index.
